Rules — Horticultural Section

- Classes are open to any grower of lilies.
- All lilies exhibited in competition must have been grown by the exhibitor. Exhibitors may make more than one entry in a class, provided that each is a different cultivar. Entries permitted in dual names, but no duplicate entries from the same garden.
- Only true lilies (genus *Lilium*) having scaly bulbs permitted. Entries to be free of obvious defects and/or disease. Specimens with abnormalities will be set aside and not judged. Anthers may be removed, but it is preferable to leave them on. A lily stem must have one bloom open to the typical shape for that particular variety to be eligible for judging.
- For all Divisions or Classes without Divisions where entries are "single stem", exhibitors may enter as many stems as desired so long as each stem is of a different cultivar.
- Entry cards and containers for specimens will be furnished by the Show Committee. In collections, each stem is shown in an individual container. Each entry must be correctly named, identified with an official entry card and placed in the proper class. Both sections of the entry card must be completed.
- Exhibits must be in place, ready for judging not later than 10:30 a.m. on Saturday 25 June, 2011 and must remain in place until 4:00 p.m. on Sunday 26 June, 2011 when they should be removed promptly. Entries not claimed by 4:30 p.m. will be disposed of by the Committee.
- Entries are the property of the exhibitor, and are not to be touched by anyone else except the Show Committee. Anthers and pollen may be removed only by the owner, or with the owners express permission.
- Doors will be closed during judging. Only Judges, Clerks, Runners, Tabulators, Chairman of Judges and Classification, and the Show Chairman may be present while the judging is in progress.
- At the close of the show, the exhibit room will be cleared before dismantling. Only exhibitors will be permitted in the showroom to remove exhibits.
- The following official NALS scale of points will be used in evaluating specimens entered in all sections except Section D.
